RESOURCE	WHAT IT IS	WHAT YOU GET
AmHydro https://amhydro.com	One of the oldest US hydroponics firms, Arcata, California since 1984: turnkey NFT leafy-green packages and start-a-farm consulting.	A proven path from zero to commercial lettuce, education included.
Athena Pro https://www.athenaag.com	Nutrient and amendment maker. We hold structured data on 3 of their products: analysis, elements, pH effect, and dosing. 1 are OMRI listed.	Run their actual products in our nutrient calculators before you buy a jug.
Atlas Greenhouse https://www.atlasgreenhouse.com	The Georgia greenhouse manufacturer, forty years on: affordable freestanding and gutter-connect houses with Southern-style ventilation.	The Southeast's value manufacturer, built for heat.
Baker Creek Heirloom Seeds https://www.rareseeds.com	The family heirloom specialist in Missouri with the deepest rare-variety list in the country and a legendary free catalog.	The niche crops nobody else carries, if you are hunting something unusual.
Bartlett Instrument https://www.bartlettinstrument.com	The Iowa family controls maker, seventy-five years on: genuinely affordable greenhouse controllers sized for small growers. Also famous, oddly, for kiln controllers. Phone orders at present.	A real greenhouse controller without the commercial-scale price.
BCS America https://www.bcsamerica.com	The US importer of Italian BCS two-wheel tractors: one power unit that runs a tiller, flail, rotary plow, and snowblower, sold through dealers.	The backbone machine of farms under three acres.
Berry Hill Irrigation https://www.berryhilldrip.com	The family Virginia irrigation supplier, thirty-five years on: drip, plastic mulch, and a human on the phone at 1-800-345-DRIP.	Call and talk to someone who has actually grown under plastic.
BFG Supply https://www.bfgsupply.com	The major Ohio horticultural distributor; small growers usually touch BFG through its retail arm, Greenhouse Megastore.	Wholesale supply across the Midwest and East, dealer-style.
BWI Companies https://www.bwicompanies.com	The Texas wholesale distributor, twenty branches, behind many Southern farm stores; wholesale accounts only.	The supply chain your local farm store probably rides on.
California Lightworks https://californialightworks.com	Grow light maker. We hold verified fixture specs for 1 of their lights: PPF, efficacy, power, coverage, with provenance.	Compare their real fixture numbers in our lighting tools before you spend.
Cardinal Scale / Detecto https://www.cardinalscale.com	The family Missouri scale manufacturer: legal-for-trade market scales, sold through dealers.	The certified scale you need before the farmers-market inspector asks.
Coast of Maine https://coastofmaine.com	The Maine composter of marine residuals: lobster-and-kelp composts and organic potting soils at garden centers.	Distinctive marine-based amendments off the retail shelf.
CropKing https://cropking.com	The Ohio hydroponic greenhouse package manufacturer since 1982, with the classic two-day Grower School as the industry's on-ramp.	A complete greenhouse-plus-hydro package and the school that teaches you to run it.

Cutting Edge Solutions https://cuttingedgesolutions.com	Nutrient and amendment maker. We hold structured data on 9 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.
Cyco https://www.cycoflower.com	Nutrient and amendment maker. We hold structured data on 3 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.
Davis Instruments https://www.davisinstruments.com	The weather station maker, an AEM brand since 2021, whose Vantage Pro2 is the small-farm weather standard.	The farm weather station everyone recommends first.
Down to Earth https://downtoearthfertilizer.com	Nutrient and amendment maker. We hold structured data on 21 of their products: analysis, elements, pH effect, and dosing. 17 are OMRI listed.	Run their actual products in our nutrient calculators before you buy a jug.
Drip Depot https://www.dripdepot.com	The family-owned Oregon online drip retailer with obsessively good how-to support and small-order friendliness.	Fittings by the each, and an academy that teaches you to plumb them.
DripWorks https://www.dripworks.com	The California drip irrigation retailer, thirty years in: kits, tape, timers, and free personalized system design.	Send them your garden map and get a drip design back, free. The gentlest first-system on-ramp.
Dyna-Gro https://dyna-gro.com	Nutrient and amendment maker. We hold structured data on 3 of their products: analysis, elements, pH effect, and dosing. 1 are OMRI listed.	Run their actual products in our nutrient calculators before you buy a jug.
Earth Tools https://www.earthtools.com	The largest walk-behind tractor dealership in North America, a Kentucky family business: BCS and Grillo tractors, forty-five implement types, and encyclopedic phone support.	The de facto manual on walk-behind tractors, and a human who has run every implement.
ePackageSupply https://www.epackagesupply.com	The veteran-owned Indiana food-grade container retailer with no minimums on stock items.	Buckets and deli cups by the each, not the case.
Farmers Friend https://www.farmersfriend.com	The farm-born Tennessee maker of Caterpillar Tunnels, the Quick-Cut Greens Harvester, and Jang seeders, tested on their own ground.	The market-garden equipment name of the last decade, with real education behind the products.
FarmTek / GrowSpan / ClearSpan https://www.farmtek.com	One company, several brand names: FarmTek the catalog, GrowSpan the greenhouses, ClearSpan the big fabric buildings, plus hydroponic fodder systems. Not the same company as ShelterLogic.	Hoop barns to fodder racks in one catalog, once you decode the brand family.
Fedco Seeds https://www.fedcoseeds.com	The Maine consumer and worker co-op: cheap, honest, cold-climate-proven seed, trees, and organic supplies, in a newsprint catalog with opinions. Seasonal ordering windows; plan ahead.	The best seed value in the Northeast, from a co-op that answers to its members.
Florikan https://www.florikan.com	Nutrient and amendment maker. We hold structured data on 19 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.
Fluence https://fluence.science	Grow light maker. We hold verified fixture specs for 2 of their lights: PPF, efficacy, power, coverage, with provenance.	Compare their real fixture numbers in our lighting tools before you spend.
Fox Farm https://foxfarm.com	Nutrient and amendment maker. We hold structured data on 15 of their products: analysis, elements, pH effect, and dosing. 5 are OMRI listed.	Run their actual products in our nutrient calculators before you buy a jug.
Gavita https://gavita.com	Grow light maker. We hold verified fixture specs for 5 of their lights: PPF, efficacy, power, coverage, with provenance.	Compare their real fixture numbers in our lighting tools before you spend.

Glacier Valley Enterprises https://www.glacierv.com	The Wisconsin produce packaging and farm-market supplier: berry tills, clamshells, pulp trays, and market signage in farm-stand quantities. Their old dot-com domain is parked; this is the real one.	Packaging in the quantities a farm stand actually needs.
Gothic Arch Greenhouses https://www.gothicarchgreenhouses.com	One of the oldest names in hobby and small-commercial greenhouses, family-run in Mobile, Alabama since 1946, with design help across a huge range.	Somebody who has been selling greenhouses since before plastic film, helping you pick one.
Greenhouse Megastore https://www.greenhousemegastore.com	The retail-friendly online greenhouse supplier: polycarbonate, trays, shade cloth, and ground cover with no account required.	The just-sell-me-ten-trays counter, from hobby to small commercial.
Griffin Greenhouse Supplies https://www.griffins.com	The family horticultural distributor since 1947, fifteen distribution centers, East-leaning: media, trays, fertilizer, structures, and IPM through a wholesale account.	The big pro house; the reps genuinely know growing.
Grow More https://www.growmore.com	Nutrient and amendment maker. We hold structured data on 27 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.
Growers and Co. https://growers.co	The Quebec tool and workwear brand allied with Jean-Martin Fortier's Market Gardener Institute: broadforks, harvest knives, and clothing built for the work.	The Market Gardener ecosystem's tools, in a catalog that doubles as inspiration.
Harris Seeds https://www.harrisseed.com	The 1879 Rochester seed house that is also a legitimate small-scale supplies source: seed-starting gear, trays, and plugs with grower terms.	Seed and the stuff to start it, one order.
Heliospectra https://www.heliospectra.com	Grow light maker. We hold verified fixture specs for 1 of their lights: PPF, efficacy, power, coverage, with provenance.	Compare their real fixture numbers in our lighting tools before you spend.
High Mowing Organic Seeds https://www.highmowingseeds.com	The hundred-percent certified-organic seed company in Vermont, strong on disease-resistance notes.	Organic-bred genetics at commercial volumes; the second catalog on every potting bench.
Hort Americas https://hortamericas.com	The CEA-specialist wholesale distributor: hydroponic substrates, LED lighting, and fertilizer aimed at greenhouse vegetables, with serious free education behind it.	A distributor that publishes real agronomy, not just a price list.
Horticulture Lighting Group https://horticulturelightinggroup.com	Grow light maker. We hold verified fixture specs for 2 of their lights: PPF, efficacy, power, coverage, with provenance.	Compare their real fixture numbers in our lighting tools before you spend.
Hummert International https://www.hummert.com	The family Missouri horticultural distributor, about ninety years old, whose fat everything-catalog is a reference document in its own right.	Friendly to smaller accounts, and the catalog teaches you what exists.
ICL https://icl-growing-solutions.com	Nutrient and amendment maker. We hold structured data on 40 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.
Irrigation King https://www.irrigationking.com	The online irrigation discount: budget drip tape, rain guns, and filters, house-brand heavy.	Consumables at the lowest prices when you know what you need.
Jack's Elementals https://www.jrpeters.com	Nutrient and amendment maker. We hold structured data on 13 of their products: analysis, elements, pH effect, and dosing. 3 are OMRI listed.	Run their actual products in our nutrient calculators before you buy a jug.
Jacks Professional https://www.jrpeters.com	Nutrient and amendment maker. We hold structured data on 18 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.

Johnny's Selected Seeds https://www.johnnyseeds.com	The employee-owned seed and tool house in Winslow, Maine: trialed varieties with the best cultural information in print, commercial volumes, and a free Grower's Library of calculators and charts.	The reference catalog of specialty growing; the free Grower's Library alone earns the bookmark.
JR Peters https://www.jrpeters.com	Nutrient and amendment maker. We hold structured data on 32 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.
Lebanon Turf https://www.lebanonturf.com	Nutrient and amendment maker. We hold structured data on 4 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.
Ledgewood Farm greenhouse frames https://ledgewoodfarm.com	Farmer-built pipe-frame high tunnels from New Hampshire, made since 1987 by a man who grows in them.	An economical tunnel and a phone call with the farmer who bends the pipe.
Link4 Controls https://www.link4controls.com	The Anaheim greenhouse controller maker: iGrow and Pearl cloud-connected controllers with text alerts. Not the SDSU iGrow, not iGrow News.	The mid-priced modern controller between Bartlett and Wadsworth.
Mars Hydro https://mars-hydro.com	Grow light maker. We hold verified fixture specs for 2 of their lights: PPF, efficacy, power, coverage, with provenance.	Compare their real fixture numbers in our lighting tools before you spend.
Monnit https://www.monnit.com	The Salt Lake wireless sensor manufacturer: affordable temperature, humidity, and water sensors with cloud alerting.	Commercial-grade sensors for barns and coolers when DIY is not the mood.
Monte Package Company https://www.montepkg.com	The family produce packaging house since 1925, in Michigan's fruit belt: clamshells, corrugated, and grab-and-go bags.	A century of packaging fruit, farm-market friendly.
Nectar for the Gods https://oregonsonly.com	Nutrient and amendment maker. We hold structured data on 4 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.
Netafim https://www.netafim.com	The Israeli-born inventor of modern drip irrigation, now part of Orbia: the industry-standard driplines and emitters, sold through dealers.	The reference drip hardware; buy it through the retailers above.
Neversink Tools https://www.neversinktools.com	Farmer-designed precision no-till tools, proven on one of the highest revenue-per-acre farms in the country, with a deep free video library.	Tools that earned their shape on a working farm, and the videos showing exactly how.
Nifty Hoops https://niftyhoops.com	The Ann Arbor hoophouse maker known for community-build installations, a barn raising with your neighbors.	A gothic tunnel that goes up in a day with help, and the story to go with it.
Ohio Earth Food https://www.ohioearthfood.com	One of the original organic input suppliers in the country, since 1972: Re-Vita fertilizers, humates, and micronutrients direct to growers.	Organic inputs from people who sold them before organic was a market.
Onset (HOBO) https://www.onsetcomp.com	The Massachusetts data logger maker: HOBO loggers for soil temperature, humidity, and light, research-grade records cheap.	The logger university extension tells you to buy for a trial.
Osborne Quality Seeds https://www.osborneseed.com	The professional vegetable seed supplier in Washington: pelleted, organic, and precision amounts with small-farm-friendly minimums.	Pro-grade seed service without pro-grade minimums.
Paperpot Co https://paperpot.co	The importer of the paperpot transplanting system and Jang seeders, run by the Farm Small Farm Smart podcast's Diego Footer.	Transplant a bed in minutes, and hundreds of hours of free small-farm business education from the same house.
Plant Marvel Laboratories https://www.plantmarvel.com	Nutrient and amendment maker. We hold structured data on 6 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.

Premier Tech (PRO-MIX) https://www.pthorticulture.com	The family-controlled Quebec company behind PRO-MIX, the default professional peat mixes, whose free Training Center articles are genuinely good agronomy.	The standard mixes, and free schooling on media, fertility, and root disease.
Prospiant https://www.prospiant.com	The 2021 merger of Rough Brothers, Nexus, and ThermoEnergy: engineered commercial greenhouses. The old names no longer exist as brands.	Gutter-connect engineering when a grower graduates to real commercial glass.
Rain-Flo Irrigation https://www.rainfloirrigation.com	The Lancaster County manufacturer and dealer: drip supplies plus the vegetable plasticulture iron, mulch layers and water-wheel transplanters, at Plain-community prices.	The plasticulture standard for market growers, built where practicality is a virtue.
Rimol Greenhouse Systems https://www.rimol.com	The family New Hampshire greenhouse and high-tunnel manufacturer: snow-rated Nor'Easter tunnels engineered for hard winters.	The tunnel that holds when the snow comes; the Northern standard for cost-shared tunnels.
Rivulis https://www.rivulis.com	The global drip manufacturer behind T-Tape, the tape most market growers actually run; absorbed Jain's international irrigation business in 2023.	T-Tape by any other dealer; there is no separate Jain USA to look for anymore.
Roots Organics https://aurorainnovations.com	Nutrient and amendment maker. We hold structured data on 3 of their products: analysis, elements, pH effect, and dosing.	Run their actual products in our nutrient calculators before you buy a jug.
Seedway https://www.seedway.com	The commercial vegetable seed division of the GROWMARK co-op, with regional reps across the East.	Where market growers graduate for volume onion, sweet corn, and vine-crop seed.
Senninger https://www.senninger.com	The Florida sprinkler maker, now a Hunter company, whose Wobblers are beloved for germination and frost protection.	The overhead sprinkler the seed-starting crowd swears by.
Sensaphone https://www.sensaphone.com	The forty-year-old remote monitoring and alarm maker: the classic greenhouse freeze and power-failure phone alarm.	The device generations of growers bought after their first frozen house.
Seven Springs Farm Supply https://www.7springsfarm.com	The Virginia organic farming supply house since 1990: organic fertilizers, cover crop seed, and row cover, shipped nationally with real advice.	The organic mail-order the mid-Atlantic leans on, with a human who farms.
Southern Exposure Seed Exchange https://www.southernexposure.com	The worker-run Virginia co-op: heat-adapted, Southeast-proven varieties and seed-saving know-how.	Seed that already knows Southern summers.
Spectrum Technologies https://www.specmeters.com	The Illinois ag measurement maker: WatchDog weather stations, soil moisture meters, and chlorophyll meters pitched at growers, not labs.	Field-scouting instruments with a knowledge base that teaches their use.
Spider Farmer https://www.spider-farmer.com	Grow light maker. We hold verified fixture specs for 2 of their lights: PPF, efficacy, power, coverage, with provenance.	Compare their real fixture numbers in our lighting tools before you spend.
Stokes Seeds https://www.stokeseeds.com	The commercial vegetable seed house serving the Great Lakes and Northeast with a strong rep network.	The other pro seed house neighbors mention alongside Seedway.
Stuppy Greenhouse https://www.stuppy.com	The Kansas City greenhouse manufacturer with roots to 1873: commercial structures and hydronic heat for serious year-round production.	The step up when your operation outgrows kit tunnels.
Sun Gro Horticulture https://www.sungro.com	The largest North American peat and mix producer: Sunshine and Black Gold, at every distributor.	The other default mix, wherever you already shop.

Sun System https://sunlightsupply.com	Grow light maker. We hold verified fixture specs for 1 of their lights: PPF, efficacy, power, coverage, with provenance.	Compare their real fixture numbers in our lighting tools before you spend.
Superthrive https://ferrymorse.com/pages/superthrive-plant-nutrients	Nutrient and amendment maker. We hold structured data on 11 of their products: analysis, elements, pH effect, and dosing. 1 are OMRI listed.	Run their actual products in our nutrient calculators before you buy a jug.
Sustane Natural Fertilizer https://www.sustane.com	Nutrient and amendment maker. We hold structured data on 7 of their products: analysis, elements, pH effect, and dosing. 5 are OMRI listed.	Run their actual products in our nutrient calculators before you buy a jug.
Territorial Seed https://territorialseed.com	The family Oregon seed house whose trial-farm heritage shows in the catalog notes, tuned for year-round West Coast growing.	Varieties proven where winters are wet and summers are dry.
Tilmor https://www.tilmor.com	Ohio-built cultivating tractors, including a new electric, plus basket weeders and wheel hoes, priced for real small farms.	The cultivation iron that fills the gap the old Allis-G left behind.
True Leaf Market https://trueleafmarket.com	The Salt Lake seed retailer that absorbed the 1917 Kitazawa line: Asian vegetable varieties plus microgreens and cover crop seed by the pound.	The Kitazawa Asian-vegetable heritage lives here now, not at the old name.
Tunnel Vision Hoops https://www.tunnelvisionhoops.com	Cleveland-made DIY high-tunnel kits, fourteen to thirty feet wide, custom sizes for odd lots, with real technical support.	American-made kits sized to your actual space, urban lots included.
Vermont Compost Company https://vermontcompost.com	The Montpelier compost-based potting soil maker whose Fort Vee is practically a proper noun among organic market growers.	The transplant mix the organic growers swear by, shipped by the pallet.
Wadsworth Control Systems https://wadsworthcontrols.com	The Colorado family firm building greenhouse controls since the 1930s: vent motors, curtain systems, and climate controllers.	One of the oldest names in greenhouse automation, still family-run.
